Skills

- **Languages**: C++, Python
- **Frameworks**: HTML and CSS
- **Tools/Platforms**: MySQL, Django, flask
- **Soft Skills**: Problem-Solving, Project Management, Adaptability

Projects

Hospitality Analytics Dashboard for Atliq Grands (Power BI) | GitHub Jan 2026

- Developed an interactive Power BI dashboard to analyze hotel performance data for a multi-city luxury hotel chain.
- Designed and implemented key performance indicators (KPIs) including Revenue, Occupancy%, Realization Rate using DAX measures.
- Performed data transformation and built a star schema data model to enable efficient reporting and drill-down analysis.

Tech: Power BI, Power Query, DAX, Data Modeling, Data Visualization

Credit Risk Prediction Model | GitHub Dec 2025

- Implemented a machine learning model to predict credit risk using a real-world financial dataset, enabling early identification of high-risk loan applicants.
- Performed data pre-processing including handling missing values, encoding categorical variables, feature scaling, and class imbalance treatment.
- Explored, selected, and compared multiple classification algorithms (e.g., Logistic Regression, Random Forest, XGBoost) to identify the best performing model.
- Evaluated model performance using accuracy, precision, recall, F1-score, and ROC-AUC, improved results cross-validation.

Tech: Python, pandas, NumPy, scikit-learn, Matplotlib, Seaborn

Exploratory Data Analysis on Netflix Data-set | GitHub May 2025

- Conducted exploratory data analysis on Netflix dataset from Kaggle to identify content trends and viewer engagement patterns.
- Performed data cleaning, transformation, and statistical analysis to extract actionable insights.
- Presented findings with visual reports to summarize Netflix content distribution by genre, release year, and rating.

Tech: Python, pandas, NumPy, matplotlib, seaborn

Training

Cipher Schools – DSA Summer Training | Certification Jun 2025

- About: It was a 6-week training journey. Self-paced learning + Live doubt-clearing sessions on weekends. Live Doubt Classes Platform: Google Meet
- Practiced core DSA concepts such as arrays, linked lists, stacks, queues, recursion, and basic algorithmic problem-solving.
- Implemented programs using C++ and explored basic GUI development using Qt Creator to understand practical application of programming concepts.

Tech: C++, Qt Creator (GUI)

Certificates

- Build Generative AI Apps and Solutions with No-Code Tools | Infosys Springboard Aug 2025
- Computational Theory: Language Principle & Finite Automata Theory | Infosys Springboard July 2025
- ChatGPT-4 Prompt Engineering ChatGPT Generative AI & LLM | Infosys Springboard July 2025
- Git and GitHub | CipherSchool July 2025
- HTML and CSS by | FreeCodeCamp Nov 2023

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.77*** since August 2023
- **Tirumala Junior College** Rajahmundry, Andhra Pradesh
  Intermediate; ***Percentage: 91%*** April 2023
- **CGTM High School** Rajahmundry, Andhra Pradesh
  Matriculation; ***Percentage: 95%*** August 2021
